SUEZ’s ozonia® ozone technology portfolio includes products from the laboratory scale to the largest ozone systems ever built. Suez uses its extensive ozone technology experience to provide the industry’s most reliable and robust products. Our unique ability to deliver the most reliable and robust systems is why thousands of customers around the world have chosen ozonia® ozone systems. We have been the ozone industry pioneer for over 25 years. Trust SUEZ to deliver the highest quality ozone solutions to meet your treatment challenges.

7 product ranges certified to international standards

over 25 years of experience

over 10,000 installations

production centres and offices

The newest family in the SUEZ ozone range, the ozonia® M includes all the latest developments from our innovation labs. The ozonia® smartO3™ automation platform adds a suite of new advanced features designed to optimize system performance. An innovative design provides improved resistance to environmental conditions and a compact footprint. ozonia® IGS+ ozone generation technology allows even lower energy consumption and increased production capacity up to 25 kgO₃/h.

**smartO3™ Technology**
- New advanced features make operations and maintenance faster, easier, and less costly
- Real-time remote access and monitoring via web interface

**higher O₃ concentration**
- Up to 16 wt%

**increased production capacity at lower cost**
- Up to 20% higher production capacity
- Reduced cost per kg of ozone capacity

**wider pressure range up to 3.0 bar**
- Higher ozone gas pressure allows optimization of the surrounding systems and infrastructure

**reliable performance in harsh environments**
- Reinforced system protection from ambient conditions up to IP65

**reduced energy consumption**
- Up to 25% reduced energy consumption using ozonia®IGS+ technology

**user-friendly & compact design**
- -25% footprint
- Easy plant integration
- Wide range of standard options
