SUEZ STRENGTHENS ITS POSITION IN AUSTRALIA THROUGH THE BUYOUT OF SEMBCORP MINORITY INTEREST IN SEMBSITA PACIFIC PTE LTD

SUEZ and Sembcorp Industries¹ announce today that they have signed an agreement, which foresees the purchase of Sembcorp 40% stake in Sembsita Pacific by SUEZ for a consideration of 485 million of Australian dollars.

Since 2000, SUEZ and Sembcorp have developed a successful partnership, which resulted into a significant growth of SembSita Pacific. With more than 56,000 commercial and industrial clients, and c. 3.7 million inhabitants supplied in the major cities of the country, it is the leading player in the Australian market of the waste recovery through advanced resource recovery treatment, and notably mechanical biological treatment.

This transaction represents for SUEZ an opportunity to accelerate its development through the full integration of its water, waste and construction activities in Australia, as SUEZ expects to develop cross-selling and extract operational synergies in the short-term. It enables Sembcorp to refocus its investments on core strategic businesses.

This transaction is financially accretive for SUEZ and is compliant with the selective financial investment criteria followed by the Group.

Jean-Louis Chaussade, CEO of SUEZ said: «This transaction will allow SUEZ to integrate its whole portfolio of activities in Australia, enabling an acceleration of growth and business development momentum in a very promising market. This will also lead to the extraction of both operational and financial synergies. It illustrates our strategic ability to maximize our value creation from existing geographical strongholds. Following this acquisition, the financial flexibility of the Group remains strong and keeps SUEZ ready to seize new development opportunities. »

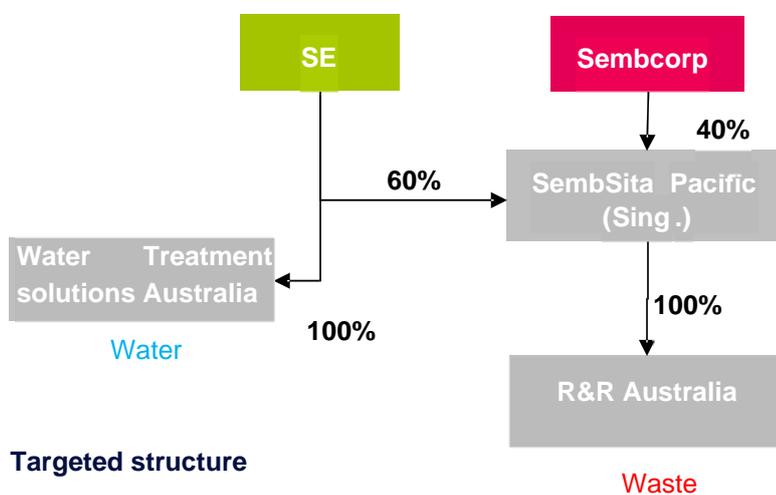

The transaction is subject to Foreign Investment Review Board approval in Australia, and is expected to be completed by the fourth quarter of 2015.

¹ Sembcorp Industries is a leading energy, water and marine group operating across six continents worldwide with total assets of over S\$18 billion and listed on the main board of the Singapore Exchange.

About SUEZ

We are at the dawn of the *resource revolution*. In a world facing rapid demographic growth, urbanisation and a shortage of natural resources, securing, optimising and renewing resources is essential to our future. SUEZ (Paris: SEV, Brussels: SEVB) supplies drinking water to 92 million people; delivers wastewater treatment services to 65 million; collects waste produced by almost 50 million; recovers 14 million tons of waste each year and produces 5,138 GWh of sustainable energy. With 80,990 employees and a presence on all five continents, SUEZ is a key player in the circular economy and the sustainable management of resources. SUEZ generated total revenues of €14.3 billion in 2014.
